

April 2018

## **BERLIN TRAINING 5 - 8 MAY 2018**

Europeans face the challenges of living in a post-Christian society and having to find ways to deal with growing refugee and immigrant migration. These complex challenges present great opportunities and possibilities, but also causes tensions, divisions, and anxiety among European nations, cities, and churches.

To address these challenges, on May 5-8 we are hosting 4-Day Accelerate Disciple-Making training in Berlin, Germany with more than 30 leaders from at least 10 countries. This is a follow up to an Accelerate training we hosted in Budapest, Hungary last year.

Our goal is:

- to see disciple-making teams focused on gospel movements form in cities across Europe, and to form an Accelerate Core Team for Europe lead by Europeans.

In Berlin we will focus on how to make disciples and multiply teams and churches in cultures that are increasingly skeptical of Christianity. We will also see how we can make disciples among the multitudes of refugees that are routinely moved from one European country to the next.

We'll be able to hear from at least one Arab refugee who has become a disciple through our leaders' efforts in the past year and see how we can minister effectively to these refugees that come from desperate, war-torn circumstances.

For gospel movements to occur, the prayer of God's people is always the beginning foundation! We ask and invite you to pray for God's power, wisdom, and truth to be with us in Berlin.

Prayer points:

- For all the logistical and administrative details to be worked out so the event runs smoothly, and all the right people are able to attend this training.
- For European leaders to emerge as leaders for an Accelerate Team in Europe and for the expat missionaries in Europe to strategically support their efforts.
- For teams of disciple-makers to be formed across cities of Europe.
- Lastly, for us to find creative and meaningful ways to disciple and minister to refugees across Europe.
